Software Engineer

C | C++ | C# | Python | Java | JavaScript | Node.js | React | AI/LLM APIs | SQL | MongoDB

Motivated Computer Science graduate (GPA: 87) with practical experience in designing and building end-to-end distributed systems. Profiling in backend development, database architecture, and RESTful APIs, with hands-on expertise in C#, .NET, Python, and cloud services. Proven ability to self-learn complex technologies and deliver scalable software solutions.

EDUCATION

BSc in Computer Science – Bar-Ilan University

2022-2025

- Completed the degree with a **GPA of 87**.
- Developed practical skills through hands-on projects and coursework in various programming languages and technologies such as C, C#, C++, Java, JavaScript, React, SQL, and Python.
- **Relevant courses:** Projects Seminar (100), Software Engineering (100), Cybersecurity (97), Programming Languages (97), Computational Complexity (94), Object Oriented Programming (91), Algorithms (90), Operating Systems (89), Machine Learning (85).

PROJECTS

Backend and .Net Development – AI-powered learning assistant for people with ADHD and dyslexia.

- Developed backend services in Python using FastAPI and integrated external APIs, including Azure and Auth0.
- Implemented a prompt pipeline incorporating data cleaning, analysis, and review to generate high-quality learning aids.
- Used diverse languages and technologies, including C#, .NET 8, Python, FastAPI, MongoDB, Redis, Docker, Azure, and OpenAI GPT APIs.

Web & Android Development – WhatsApp-based Android chat app and website.

- Built a web and Android chat application simulating features found in apps like WhatsApp.
- Used diverse languages and technologies, including JavaScript, HTML, CSS, React, Node.js, Java, MongoDB, and SQL.

ARMY SERVICE

Economic Coordination & Liaison NCO – IDF, COGAT

2019-2021

- Facilitated coordination of economic activities between the Israeli government and the Palestinian Authority, working closely with cross-functional teams while maintaining professionalism and cultural sensitivity.
- Successfully reduced report production time by 85% (from 2+ hours to 20 minutes), significantly improving department response times and data accuracy.
- Demonstrated strong initiative, ownership, and problem-solving under pressure.

COMMUNITY INVOLVEMENT

Math Tutor – Center for Educational Technology (nun)

2023-2024

- Provided academic support to high-school students preparing for Bagrut exams during the first year of the October 7 war.
- Adapted explanations to different levels, broke down complex problems into clear, step-by-step solutions, and helped students develop mathematical thinking.

LANGUAGES

- Hebrew (native language)
- English (fluent)
